

EXCAVATION

A cross-sectional diagram of a channel excavation. The top line is labeled "NATURAL GROUND" with a wavy line. The excavation is shown as a trapezoidal shape with diagonal hatching. The bottom of the excavation is labeled "CHANNEL EXCAVATION". The width of the excavation at the bottom is indicated as 1' on each side of the centerline.

BACKFILL

A cross-sectional diagram of a backfill. The top line is labeled "GRADING PLANE" with a wavy line. The backfill is shown as a trapezoidal shape with horizontal hatching. The width of the backfill at the bottom is indicated as 1' on each side of the centerline.

ABUTMENTS

EXCAVATION

A cross-sectional diagram of an abutment excavation. The top line is labeled "NATURAL GROUND" with a wavy line. The excavation is shown as a rectangular shape with diagonal hatching. The bottom of the excavation is labeled "CHANNEL EXCAVATION". The width of the excavation at the bottom is indicated as 1' on each side of the centerline.

BACKFILL

A cross-sectional diagram of an abutment backfill. The top line is labeled "BACKFILL" with a dashed line. The backfill is shown as a rectangular shape with horizontal hatching. The width of the backfill at the bottom is indicated as 1' on each side of the centerline.

WINGWALLS

LEGEND

Two rectangular boxes. The first box contains diagonal hatching (top-left to bottom-right). The second box contains horizontal hatching.
